

The Central Bucks School District is pleased to announce that we will now be offering Office 365 and district email for all students in 5th and 6th grade. Office 365 is an online Microsoft product, which will

improve communication and collaboration between students and teachers. Students at Jamison will be introduced to Office 365 during their library class and it will be enforced with their classroom teacher. A parent introductory letter and student expectations for use can be viewed at <http://www.cbsd.org/page/16828>. Additional details about this technology and directions on how students can obtain and download up to five complimentary copies of Office 365 for Business can be found at <http://www.cbsd.org/365>. Please contact Mrs. Salter, Jamison's librarian, at tsalter@cbsd.org or your child's classroom teacher if you have any questions.
