

Overview of Summer Reading Activities

Grades 3-6 Book Talks:

On designated days in July and the first week of August, students will have an opportunity to bring their current independent reading book to the library and share their book with their peers. This gives all students opportunities to develop their “to read next” book. Effective reading strategies will also be discussed.

K-2 Phonics Games:

On designated days in July and the first week of August, students will have an opportunity to come to the library and participate in various games and activities that reinforce phonics skills and strategies taught throughout the school year.

All activities will take place from 10:30-11:15. Parents may drop their children off in the library and pick them up in the rotunda.
