

What will Friday look like during Phase 2 of Distance Learning?

Friday is considered a flexible student workday in which your child has some choice in his/her learning. I will not be assigning work on Fridays.

Instead, your child can independently work on various activities including:

- Music (Check out Mrs. Kelly's [website](#) for the activity)
- Social and Emotional Wellness activities (SEW) shared on Mrs. Levy's [website](#)
- Finish activities that need follow-up or review from the week
- Read to self and/or Listen to Reading
- Xtramath to practice fact fluency
- Free Write (work on an independent writing piece such as a creative story, research, persuasive piece, poem, narrative, etc.)
- Other activities connected to links on my teacher site or choices that were shared during Phase 1

Some things to consider:

What inspires you?

What do you want to learn more about?

What do you need more practice with?

How can you be a problem-solver?

How can you spread kindness?
