

LEADING THE WAY

The Central Bucks Schools will provide all students with the academic and problem-solving skills essential for personal development, responsible citizenship, and life-long learning.

Summer 2019

Dear Parents/Guardians:

This summer we are implementing a new program that provides students with more CHOICES for reading. We hope to generate lots of enthusiasm for reading during the summer months!

Our goal is to have students reading on a regular basis because they *choose* to do so. We encourage students to choose books that interest them. When students are interested and engaged in a book, reading becomes a *meaningful* part of their lives.

We encourage you to be involved in conversations with your child about the book they choose. When family plays an active role in their child's reading life, students can witness firsthand the role reading can play in their lives.

At CB West, teachers have shared their favorite books on the [summer reading website](#). If your child is searching for suggestions for what to read this summer, please peruse the list of faculty favorites. When students and staff return to school in the Fall, book discussions will be held in Advisory providing everyone with the opportunity to share what they read over the summer. This communal goal will continue to promote reading for pleasure and build on the school culture at CB West.

Thank you for being an important part of our reading community!
