

Dear Parents,

This year in QUEST class we will be using the engineering design process for multiple projects. To keep our projects running smoothly we would like to get some help from home in the form of donated supplies. Many of these materials would usually be recycled or thrown away. If you have any of the supplies below, please wash the item out if needed, have your child bring them into school and put them into classroom donation bin outside of his/her QUEST classroom. Thank you in advance for your help!

- Mrs. Jaeger & Mr. Voorhees

### Suggested Materials

- plastic containers
- plastic water bottles
- plastic water jugs
- large plastic bins
- soda bottles
- apple sauce cups
- yogurt cups
- paper towel tubes
- toilet paper tubes
