

Division Facts

Look at the pictures below. Write the division fact.

$$\underline{\hspace{2cm}} \div \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} \div \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Use a multiplication fact to figure out a division fact.

Share 18 scones equally among 6 people.
How many scones does each person receive?

$$\underline{\hspace{2cm}} \div \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$\square \times 6 = 18$$

$$18 \div 6 = \square$$

Each person receives _____ scones.

Mr. Cook sews a total of 72 buttons onto some dresses.
He sews 8 buttons onto each dress. How many dresses
are there?

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

$$\square \times 8 = \square$$
$$\square \div 8 = \square$$

There are _____ dresses.

Write two multiplication equations and the related division equations using the given numbers and operation signs.

7	42	6	\times	\div	=
---	----	---	----------	--------	---
