What started as a small group of families gathered in library chairs in 1983 has blossomed into Bucks County's leading voice on mental health. Today, we are an association of local individuals and families who work in the community to raise awareness and provide support and education that was not previously available to those in need.

NAMI Bucks County PA is dedicated to improving the lives of individuals and families affected by mental illness through recovery-focused support, education and advocacy. NAMI envisions a world where all people affected by mental illness live healthy, fulfilling lives supported by a community that cares.
