

Sixth Grade - Week 1

Overview: **March is Music in Our Schools Month!** Schools in Central Bucks and all over the country are participating by highlighting the ways that music can connect us all. For this week's activity, students will recognize that interests, knowledge, and skills relate to personal choices and intent when creating, performing, and responding to music. (PK8-MU:Cn.10.0)

Estimated Time: Approximately 20-25 minutes

Explanation: Enjoy an opportunity to connect with a family member or caregiver by interviewing them about the role of music in their life.

Three quick things to know:

1. Choose a family member or caregiver and use a questionnaire to guide your interview and discussion about music.
2. Use the questions as a starting point, and feel free to discuss the answers in detail or ask follow-up questions.
3. If you cannot print the questionnaire, create five questions you could ask about someone else's musical background.

Tasks:

- Click here to access the questionnaire.
- Choose someone to interview. Ask them the questions and record their answers.
- After the questionnaire is finished, ask the person you interviewed to sign and date it at the bottom.

Extension: Let's explore the world of music tech! Check out <http://jamzone.littlekidsrock.org/lessons/?instrument=tech> to learn how to sample your own music and even use your iPad or Garage Band app on your phone to mix your own music! Can't access this link? Imagine you are in your own band. What type of music would you play? Would you be the singer, drummer or something else? What is your band's name? Draw a poster advertising your band, the sky is the limit!
