

Soccer is the best sport to play

By: Bryan V-C

Playing soccer can be hard but it's not if you practice. Playing soccer is a fun thing to do. Every one should try to play soccer. You should play soccer because it's not dangerous, it's a cheap sport, and it's just fun to play. Afraid of getting hurt? You don't have to worry.

To begin with, soccer is not dangerous to play. It doesn't involve any violence so you can play with out getting hurt. All you do is run and kick a ball but you don't need to tackle. This is why you don't need a lot of equipment to keep you safe. Some times you get hurt but that can happen anywhere. That's why I think that soccer is safer then other sports.

Second ,soccer is a cheap sport because you don't need much equipment. Professionals and kids who play on teams use equipment to play, but if your just playing for fun you don't need any. You can play bare foot if you want. You don't need to play on a filed. You can find any open space that's safe. You don't need goals because you can use rocks or two sticks to mark the goals. If you think about it all you really need is a ball to play and you can buy one for \$5. That is why soccer is a cheap sport.

Also, soccer is fun to play. When your hanging out with one or more friends it's fun to pass the ball to each other. Every chance I get at recess I play a game on the soccer filed or pass the ball with my friends. You can also play on a team and meat new people. When your by yourself you can practice different moves and ball skills.

As you can see, soccer is the best sport to play because you don't get hurt only a little bit.soccer is the best sport to play because it's not dangerous, it's cheap sport to play and it's just fun to kick the ball around in the field. That's why I think that soccer is the best sport to .So try it you will have lots of fun.
