

We should all have Oovoo

By. Dominic T

Have you ever forgot your homework and needed some one to tell you what it is then use Oovoo. You can do many things with oovoo is good for many things. you can talk to your friends ,have fun, and be texting with them. I am going to tell you why you should get Oovoo on your device.

First, you can talk with your friends even when your not at your house. One of the best things about the app is if your mom is at work she can use the app to see you. It is like being in front of your friend but you are really not. If you want to do group facetimes you can you can see up to four people on the app at the same time.

Next, the best thing about this app is it is free. There are no texting charges and it is free to talk on a phone and facetime. Some times I'm on Oovoo for hours and still I do not pay a penny. Tell me how many apps like this are free, most apps like this cost 0.99 cents or something like that but this app cost nothing what's better than that. The app Oovoo is for all phones with internet access.

Also, you can text friends or family that are away from you or in a different state. When your friend is on vacation you can text him. When your mom is at work she can text you. You can even do group texts with all your friends from school and from other places. If they forget there homework they can call or text you to find out what it is. That has happened to me once and I had to tell him what pages to do. So you never know when something might happen and no ones home so you have to Oovoo your parents to come home and help you get u in.

In conclusion, Oovoo is good for many things, you can talk with your friends, have fun, and be texting with them. So I hope that you get the free app called Oovoo and have fun with it.
