

Everyone Should have Oovoo

By: JahzairAM

Have you ever experienced Oovoo before? If you haven't you should because it is a great communication source to talk with friends and family. It has a lot of detail and it is just like a phone but you can do more things with it. It is free and easy to use, you can call friends, and you can text them. You can do a lot of things on Oovoo that a regular phone cant do.

Firstly, everyone should have Oovoo because it is easy to use and it is free. Using any electronic device with Wi-Fi you can set up an account for free. Parents cant complain about the cost. Just put in a username and a password. And when you go on Oovoo when you have an account it just logs in for you. So you wont have any trouble trying to log in if you forgot your password. Then you can make groups for friends. I made a group with five of my friends. You can also create a name for the group and make a picture for the group without any trouble.

Secondly, everyone should have Oovoo because you can call friends in different ways. You can call in a face time group at the maximum of four people at the same time. You can also group call. That's when you can call and add as many of your friends to the call. And there is a voice call. When you voice call you can talk in this microphone that pops up on your screen and you tap on it and say whatever and when your done just tap on the send button.

Thirdly, everyone should have Oovoo because you can text in many ways like my friend and I text each other and we text in a creative way. We always text using emoji faces and other things because there are 400 emoji's of everything. Animals, vehicles, buildings, faces, and a lot more. It's really like regular texting. You tap on the person who you want to text. Also and every day all five of us text each other at the same time.

In conclusion, everyone should have Oovoo because it is fun and everything you can do on a phone is combined into one app. Free and easy to use because your parents don't have to worry about cost and it is easy because it is like working a phone. You can call friends in fun ways like video call. And you can think of creative ways to text. That's why I think that everyone should have Oovoo.
