

Caring for your Flute

Here are a few simple things that you should do to keep your flute in good working condition throughout the school year.

1. Assemble and disassemble your flute carefully. (Never grab it by the keys.)
2. Swab out and wipe down the head joint with a soft cloth before putting it in the case.
3. Don't play with or over tighten the end cap.
4. **Never** put anything in on top of your flute before closing the case.
5. Be sure that your case is properly latched before picking it up.
6. **Never** leave your flute unattended.
7. **Never** place your flute on a music stand.
8. **Never** let other students play or handle your flute.
9. Have an I.D. tag on your case that has your name and school clearly written.
10. Practice your minimum 100 minutes per week so the flute won't get lonely.
