1:1 Update – Parent Feedback

Survey Feedback - FORMS

Big Questions

- Are students getting training on how to use all the tools of the Microsoft platform? Can parents get training?
- Can we print from home?
- Are parents getting a parent login? Do they need one?
- What is the long term goal for canvas? Will all teachers be using?
- We are hearing about issues with the pens. Can you explain?

Questions for our Parents

How is the 1:1 is going from your perspective?

What is something your child is able to do now in the 1:1 that was not able to be done in previous years?

Do you think we should expand this to other schools?
Other grades?

Do you believe this is the correct device for a 1:1 program? Why/why not?
