CBSD District Goals

CBSD 2015-2016 Goals

Holicong School Goals

Technology – We will continue in the 2nd year of this goal to allow for staff to integrate technology in the classroom setting. Technology sessions will be offered to allow for a “teaching” component by school and district leaders, and also individual and group time to turn theory into practice. Trainings could include, but are not be limited to: SMART, Office 365, OneNote and resources that provide opportunities for formative assessment in the classroom.

Grading Practices – We will work collaboratively as faculty and in curriculum areas to ensure we are aligned with the CBSD Middle School Grading Philosophy and Practices. This includes:

- Continue our work with establishing consistent grading practices in subject areas, focusing on consistent approaches for second-chance learning and distribution of grades
- Continue to provide resources for effective formative and summative assessment.

School Culture – We will continue our work in this area, and this will be a yearly focus for our staff and students. We will continue to look to:

- Create an atmosphere where all students have opportunities to be involved
- Incorporate the teaming philosophy in a manner that will allow for students to practice and model the Elite 8 and treat one another with respect at all times. We will recognize and celebrate students that exhibit the traits of the Elite 8.
