

Grade Kindergarten: Math

Wednesday, May 13, 2020

Overview: Subtraction: Subtraction Sentences and Review

Things to know:

1. Sit with mom, dad, grandparent or guardian, or your brother or sister to practice the activities for the day.
2. If you do not have the supplied worksheets or access to any of the worksheets, it is fine to create your own based off the supplied worksheets.
3. More specific directions are provided on each sheet/activity that goes along with these lessons. I will send these sheets through email.

Explanation: You will practice making subtraction sentences.

Tasks	Resources
1. Calendar Math: Complete today's calendar activities.	Document: Calendar Activities
2. Learn:	Watch the instructional video to review subtraction and making subtraction sentences.
3. Try: Complete the "Try" Activity	Watch a video for guidance and additional support while you complete the "Try" pages provided or use it to check your work after completing the "Try" pages.
4. Complete the "Independent Practice" and turn it into your teacher	Complete the independent practice problems independently provided for the lesson. You will turn these into me, and I will check your understanding. If something is not done correctly, I will ask you to complete the problems that are incorrect again to show you understand the concept.
5. Complete fact practice	Work on the Math Activity Calendar, create 5 math subtraction sentences using real objects you have at home, teach your favorite stuffed animal how to add and subtract numbers 0-5.
6. How is this assignment turned into the teacher?	When you are finished your math worksheets, take a picture of it and send it to me. We can also talk during my conferences hours if you are having a difficult time. Have fun completing your math work today. If you need an extra day, that is fine 😊
