## Songfest Etiquette and Info:

- **NON-CB FAMILY AND FRIENDS** – you may want to download the free Microsoft Teams app on your computer or device in order to get the best experience if you are hoping to watch the Songfest!
- During each performance, Mr. Glaser will mute everyone's microphones except for the person performing. Everyone should also turn their cameras off as well.
- At the conclusion of each performance, audience members may unmute microphones and turn your cameras back on so the performer can hear your applause and cheers!!!!
- You may type into the chat during and in-between performances, but comments should be positive and focused on the performers, performances, and event.
- Songfests are recorded – please be aware that if your camera is on at any time during the performance, you may be able to be seen in the video recording.
- Feel free to join us for the entire hour or just pop in when you can.
- In February, there will be both an all-instrumental songfest and a songfest celebrating the music of African-American artists! Stay tuned to morning announcements for dates and additional info!
