

Reflections

① \overline{AB} has endpoints $A(1,2)$ $B(3,4)$

a) graph the segment & its reflection over the x-axis

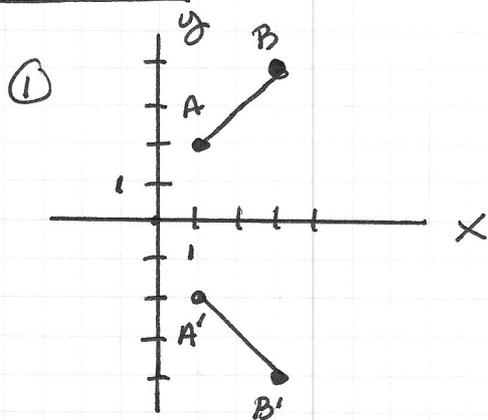

b) find the coordinates of $\overline{A'B'}$.

② $\triangle ABC$ has vertices $A(2,3)$ $B(3,6)$ $C(4,5)$

a) graph the \triangle & its reflection over the y-axis

b) find the coordinates of $\triangle A'B'C'$.

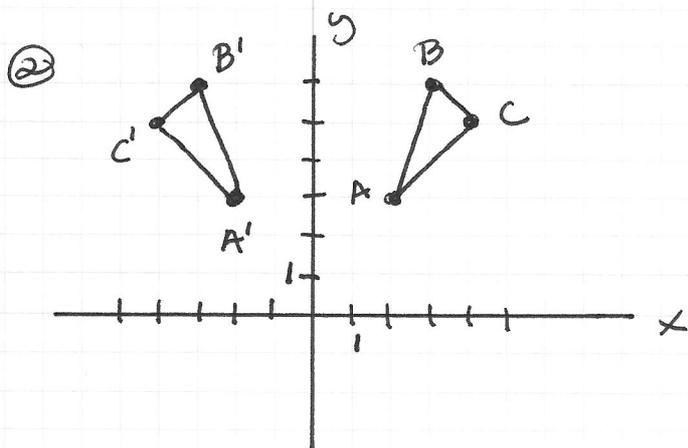

Answers:

Coordinates of $\overline{A'B'}$

$A'(1, -2)$

$B'(3, -4)$

Coordinates of $\triangle A'B'C'$

$A'(-2, 3)$

$B'(-3, 6)$

$C'(-4, 5)$
