

Solving Systems of Equations: Graphing

Solve each system by graphing. Check your sol'n's.

① $y = 3x - 2$
 $y = -x + 6$

② $4x + y = 3$
 $y = -4x + 1$

③ $x + y = 1$
 $3x + y = -1$

④ $3x - 4y = 8$
 $y = \frac{3}{4}x - 2$
