

MAKE GOOD CHOICES

USE MEDIA SAFELY

We remind families – please encourage children to make good choices when consuming, sharing, and using online content and electronic media like photos and videos. Report inappropriate content to a trusted adult, reject or delete it if someone attempts to share it with you, and don't pass it along – the consequences could be serious.

Electronic media is a useful and exciting part of our 21st Century life – but we must all be responsible consumers. To learn more about digital citizenship and get advice for helping children navigate the digital world, we suggest the resources at www.common sensemedia.org.
