

## Linden Family Sharing the Love

The Strigl family would like to share an initiative to get messages of love and caring to members of our community in nursing home facilities.

The Box of Love has been placed at the Main entrance at Linden for the purpose of sharing some community love. Students, parents, and community members are encouraged to come by and drop letters/ drawings and well wishes in that box to then be delivered to these facilities around town.

This initiative has been approved by the Doylestown Health Department.

Please help brighten up our dear senior citizens who are unable to see their loved ones during these rough times.
