

**Your Task:**

Write a meaty paragraph (More than 7 sentences) that describes the perfect society. In it, you will address some of these questions:

- What kind of jobs do people have?
- What is the government like (is there one)?
- Kids: how are they treated? How are schools run?
- How do people become educated?
- Are there any requirements with choice?
- What do people look like? How are they dressed?
- How do people get married?
- What happens when people get sick?
- How are laws enforced? Are the laws similar to our society?

To receive full credit (a 12 point homework assignment), you must address 5 of these 9 bullets. Additionally, you must write about something that your society includes which is not on this list (basically, you are telling me one additional thing about your society).

You also must include either a hand drawn picture or 4+ images from the internet or magazines which reflects the content of your paragraph.

**This paragraph is due Thursday. It must be typed and double spaced.**
