

Theorist Web Quest - Erikson

Use the resources in the library to search for the following information concerning your assigned theorists. **Do not use Wikipedia as a source! Be sure to hyperlink all of the websites which you used as research findings. Minimum number of sources is 2.**

Step #1 – Specifically explain the main theories/stages of Erikson. Be sure to include:

- a. ages and stages
- b. a complete description of each stage
- c. and the positive and negatives of each stage

Step #2 – Answer the following questions with a *complete* response.

If you follow Erikson's theory of social development ...

- a. How would you teach an infant to trust you?
- b. How would you handle potty training accidents in your 2 year old?
- c. You are fixing your 4-year-old's bike. How can you help that child develop a sense of industry or competency?
- d. You are teaching a group of 6 year olds. How can you help those children develop a sense of industry?
- e. Your teenager (or you) is experiencing problems with his/her/your friends. According to Erikson, what does this person need to accomplish to be successful later in life? Give a specific example.

Step #3 – Describe two parts of Erikson's theories that you think are interesting, and tell why.

Theorist Web Quest Grading Rubric

	<u>Advanced</u>	<u>Proficient</u>	<u>Basic</u>	<u>Below Basic</u>
<u>Research</u>	St. has more than 2 articles from reliable sites.	St. has 2 articles from reliable sites.	St. has 1 article from a reliable site.	No articles have been sited.
<u>Answer/work quality- Part 1</u>	St. provides detailed explanations in own words, gives more than one example, shows complete understanding of material.	St. provides explanations in own words, gives one example, shows understanding of material.	St. provides explanations but in author's words, gives one example, shows basic understanding of material.	Either no explanations given or all in author's words; shows no understanding of material.
<u>Answer/work quality- Part 2</u>	St. provides detailed explanations in own words, gives more than one example, shows complete understanding of material.	St. provides explanations in own words, gives one example, shows understanding of material.	St. provides explanations but in author's words, gives one example, shows basic understanding of material.	Either no explanations given or all in author's words; shows no understanding of material.
<u>Answer/work quality- Part 3</u>	St. provides detailed explanations in own words, gives more than one example, shows complete understanding of material.	St. provides explanations in own words, gives one example, shows understanding of material.	St. provides explanations but in author's words, gives one example, shows basic understanding of material.	Either no explanations given or all in author's words; shows no understanding of material.
