

Ballistics Review:

1. The following are example names for common handguns:
32 44 22 357
What do these numbers mean if anything?
2. Do all types of guns have rifling? If not, which do not and why?
3. What is the purpose of rifling a gun barrel?
4. Sketch and label all the parts of a hand gun round.
5. Do all guns have safeties? If not, which do and which don't.
6. Explain the relation ship between trigger pull and rounds fired for each of the following type of weapons.
 - Single Shot-
 - Double Barrel-
 - Simi-Automatic-
 - Automatic-
