

1- Weebly Self-Guided Projects

Wednesday, April 1, 2020 10:33 PM

Instructions: Learn how to use Weebly by making your very own personal website about **a favorite hobby of yours**. To prove mastery of this tool, you **must minimally complete 8 of the 10 projects** below. (Pay careful attention to the "required" vs. "optional" projects labels)

Required Project 1 - Getting Set Up

- Sign up for a Weebly account at <http://education.weebly.com/> Choose a theme for your hobby website.
- For step by step instructions, please visit [First Steps](#)
- For more information on how to choose themes [Switch and Manage Themes](#)

Required Project 2 - Adding Text to Your First Page

- Add text to your website. Include such information as:
 - (1) Your name and a brief bio about who you are
 - (2) A description of your hobby
 - (3) How long have you been interested in this hobby and why do you like it?)
- For more information about adding various elements to your page, please visit [Intro to Content Elements](#)

Required Project 3 - Creating Web Links

- Create three web links to sites that would be helpful for visitors to learn more information about your hobby.
- More information on how to create text, image, button and navigation links, visit [Create Links](#)

Required Project 4 - Uploading Images/Photos

- Add at least two images or photos to your website.
- Visit Google Images to find pictures for your site at <https://images.google.com>
- For step by step instructions, please visit [Adding Pictures to a Site](#)
 - Remember to consistently resize all pictures so they appropriately fit on your pages

Required Project 5 - Upload Files

- Create a basic Word document file that includes a simple picture pertaining to your hobby, upload it to your website and create a link to it.
- For more detailed information, visit [Upload and Link to Files](#).

Required Project 6- Adding Pages to your Website

- Add a new Photo Gallery (or Slideshow) page to your website.
- To learn more visit [Create Pages and Navigation](#)
- Step by step directions for adding a photo gallery or slide show can be found at [Galleries and Slideshows](#)

Required Project 7 - Create a Contact Form

- Add a Contact Me form page to your website.
- For step by step instructions, please visit [Add a Contact Form to your Website](#)

Required Project 8- Adding a Video to your site using an html code

- First create a new "Video" page (see above). Next, find a YouTube video about your hobby and embed it on your site using the html code option.
- For step by step instructions, please visit- [Embed Videos](#)

Required Project 9- CHALLENGE - Adding Widgets & Other Creative Content Elements to your Site

- Learn how to add a [calendar](#), [Search field](#), or other types of creative [Content](#) (Audio Player, Blog Posts, Online Schedule, etc.)

Required Project 10- Publish Your Website

- Weebly websites must be published for others to view them. Step by step instructions are available at [Publish Your Site](#)
- Visit the project checklist to ensure that you have completed minimally 7 of 10 projects above

Weebly Self-Guided Projects Checklist
