

TIMES TABLES TRICKS

The 1's and O's!

1 times any number is that number I $1 \times 6 = 6$ $56 \times 1 = 56$ O times any number is OI $0 \times 12 = 0$ $34 \times 0 = 0$

<u> The 3's!</u>

Double the other factor and then add it in one more time!

<u>2</u> × 3 = 21 Double 7 and that makes 14, then add 7 in one more time and you have 21! Sweet!

<u> The 5's!</u>

Skip count by 5's. You can always use your hands!

5 × 5 = 25 Skip count by 5's and after you say the 5th ______number you got it! 5, 10, 15, 20, 25!

<mark>The 7's!</mark>

Skip count OK use the other factor's tricks!

 $7 \times \frac{2}{2} = 14$ You can use the 2's trick! Just double 7 and you get 14!

The 9's!

Use the hand trick or the paper trick.

 $9 \times 9 = 81$ Hold your hands up, but put down your 9^{th} finger. You will have 8 digits to the left of that finger and one to the right! Cool!

<u> The 11's</u>!

Just repeat the other factor for the product I

7 × 11 = 77 6 × 11 = 66

The 2's!

Double the other factor I

 $\underline{6} \times 2 = 12$ Just double the 6 and that makes 12! $\underline{8} \times 2 = 16$ Double the 8 and that makes 16!

·····

The 4's

Double, Double] $12 \times 4 = 48$ Double 12 and that makes 24. Double 24 (24 + 24) to get 48!

<u> The 6's!</u>

Sing our song and Write down the multiples as you sing I $6 \times 5 = 30$ 6×2 is 12, 6×3 is 18, 6×4 is 24, 6×5 is 30!

The 8's!

Use our rhymes, skip count, or use the other factor's tricks!

8 X 4 =32

 4×8 is a freezing state of 32 degrees

The 10's!

Write the other factor and add a O to it I

<u>5</u> × 10=50 <u>10</u> × 10=100 10 × 11 =110

<u>The 12's!</u>

Use the other factors tricks or use repeated addition I

12 × 3 = 36 12 + 12 + 12= 36
