

Quest Log-in Instructions

1. On my homepage, the bottom right there is a link for "Quest login"

The screenshot shows a website for "Mr. Lockard's Chemistry Class". The header includes the name "LOCKARD, KEVIN" and a navigation menu with links: Home, Homework & Schedule Calendar, AP Chemistry, Honors Chemistry, Homeroom Information, and Email Assistance. The main content area features a title "Mr. Lockard's Chemistry Class" with a graphic of four periodic table elements (Oxygen, Carbon, Potassium, Argon) forming the letters "LOCK". Below the title is a welcome message: "Welcome to my webpage! If you have any questions feel free to email me with the question or to set up a time to meet with me!". In the bottom right corner, there is a link "Quest Login Page" which is highlighted with a green box and a red arrow. Below this link is a link "Quia" and a text "Interesting Chemistry videos uploaded 'Periodically'".

2. Click that link, then click the "Log In to Quest" link

come to Quest

It provides tools to incorporate online multimedia content and assessments into your course. This hybrid of in-class and online teaching can take on many forms:

Flipped Classroom

It provides lecture content to students online before class and the classroom is saved for case studies, problem solving, demonstrations, etc. The linked assessment feature assures students have seen the content and reveals their level of understanding of the material.

Click "I need a UT EID" link

The image shows the login page for The University of Texas at Austin. At the top is a brown header with the university's name. Below it are two white input fields labeled "UT EID" and "PASSWORD". A brown "LOG IN" button is centered below the fields. Under the button is a link that says "I forgot my UT EID or password." Below this link is a smaller link "I need a UT EID." which is highlighted with a green rectangular box. A red arrow points from the bottom left towards this box. The word "Help" is visible below the "I need a UT EID." link.

You need to fill out this information and create a UT EID. The University of Texas is in control of all usernames and passwords, so make sure you **WRITE YOURS DOWN**. Also, please use your real information so that you can be identified properly.

Once you have created a UT IED, close out of the page it defaults you to, and reopen the link from my website (or just Google "Quest Learning"). Log in and add a new course.
