

5th Grade Distance Learning Plan

Reading

Each week you will be given a short story/article to read from a different type of genre or style of writing. These assignments can be found in the manilla envelope that was sent home with your child. Each day, you will be asked to apply a skill or strategy and provide evidence of your work. Below is a suggested schedule that you and your family can follow. Please feel free to find what works for you.

Tuesday: The name of the passage/article will be posted [here](#) along with a brief summary statement. I will also list any confusing words to help you while you're reading. Your job on this day is to read the article and circle any additional words that you do not understand. If you cannot find any words like this, choose at least TWO words that are interesting.

Wednesday: Reread the story/article. Complete the summary frame attached orally.

Thursday: Answer the comprehension questions that go along with the passage or article.

Friday: The answers to the questions will be posted. Check your work!
