JV VARSITY GIRLS SOCCER, COACH BAUER

7th Grade girls soccer season can be summed up into one word, Progress! These girls didn't have the season they had hoped but I can tell you that every game they played showed personal growth and progress. I was very proud of how high their spirits were and how much drive they had to be at every practice and every game! Fingers crossed for next year and more progress that will be made in a year!
