

Banana Caterpillar

Supplies:

- 1 Banana
- 1 Knife
- 1 Dixie Cup full of Vanilla Frosting
- 2 Chocolate Chips
- Pretzel Sticks
- 1 Paper Plate
- 1 Dixie Cup full of Coconut Flakes

Directions: (Check off each step as you complete it.)

_____ 1. Walk over to the table/counter to get your supplies.

_____ 2. Bring all of the supplies back to your desk.

_____ 3. Peel open your banana. Using your plastic knife, cut the banana into small slices.

You should have about 10 slices of banana. They should look like round coins.

_____ 4. Put the slices of the banana together by spreading vanilla frosting on each slice and sticking them together. Do this until all of the pieces are gone.

_____ 5. Sprinkle the coconut on top of your caterpillar. Gently press the coconut so that it sticks to the caterpillar.

_____ 6. Press the chocolate chips into the front of the caterpillar to make eyes.

_____ 7. Break the pretzel pieces into smaller pieces. Stick the pretzel pieces into each side of the body to make legs.

_____ 8. Take two pretzel pieces and stick them in the head for antennae.

_____ 9. Have either a parent or teacher check over your recipe. Make sure all steps on this paper are checked off!

Enjoy!!!
