

# Improper Fractions and Mixed Numbers

Write the improper fraction and mixed number shown by the pictures.

Convert each improper fraction to a mixed number.

1)  $\frac{31}{8} = \underline{\hspace{2cm}}$

2)  $\frac{23}{10} = \underline{\hspace{2cm}}$

3)  $\frac{27}{4} = \underline{\hspace{2cm}}$

4)  $\frac{7}{2} = \underline{\hspace{2cm}}$

5)  $\frac{29}{8} = \underline{\hspace{2cm}}$

6)  $\frac{20}{3} = \underline{\hspace{2cm}}$

Convert each mixed number to an improper fraction.

1)  $6\frac{5}{8} = \underline{\hspace{2cm}}$

2)  $9\frac{1}{8} = \underline{\hspace{2cm}}$

3)  $6\frac{1}{5} = \underline{\hspace{2cm}}$

4)  $6\frac{4}{9} = \underline{\hspace{2cm}}$

5)  $3\frac{1}{2} = \underline{\hspace{2cm}}$

6)  $3\frac{1}{5} = \underline{\hspace{2cm}}$
