

# Hello

- Please grab a laptop and a text book.
- Pick a card from the deck that I am circulating with.

# Today

- Creating review sheets.
- Return Thermo Quiz.

# Review Project

- You will be creating a 10 question review for a chapter that we have covered.
- Create 10 questions in a word document.
- You will do this with your lab partner.
- You will also create a hand written key that you will turn in at the end of the period.

# Requirements

- Cover as many topics that we have covered from the chapter that you are assigned as possible.
- Include relevant formulas for the questions at the top of the page.
- Put the names of both people who worked on it.

# Topic Card

- A & 2: Ch. 17
- 3: Ch. 16
- 4: Ch. 4
- 5: Ch. 5
- 6: Ch. 6
- 7: Ch. 7
- 8: Ch. 8
- 9: Ch. 9
- 10: Ch. 10
- J, Q, & K: Ch. 12

# Procedure

- Create your 10 questions in a work document.
- You and your partner do the problems on a piece of paper that will be scanned and posted with the document.
- Trade questions with another group.
- Solve and check your answers.

# Submission

- Once another group has solved your questions and you (all 4) agree on the answers, put the document in my drop folder.
- Include the author's names.
- Hand in the answer sheet.

# File Name

- Block number-chapter number- last names of authors and the word review.
- Example: 2-16-BreishSmithReview

# Thermo Quizzes

- I have put the grades on IC.
- Please look your quiz over and let me know what questions that you might have.

**Have a Great Weekend**
