## Concussion Information

3 - February 15 Professional Development Day Presentation - Dr. Matthew Grady (CHOP)

Typical concussion symptoms:

- Headaches
- Vision issues (e.g. tracking)
- Balance issues
- Lethargy

4 - What is the best approach to dealing with concussions in school?

- *Healing requires a balance of engaging a student in school work but with limitations*
  - *Complete brain rest for a concussion does not promote healing*
  - *Trying to stay at 100% of normal activity does not promote healing*
  - *Light, physical activity (e.g. stationary bike) promotes healing*

*Students may or may not need to do the following (dependent on doctor's direction):*

- *Come to school for partial day and work up to full day*
  - *Temporarily audit classes*
- *Build rest breaks, temporarily into their schedule*

A BALANCED APPROACH IS MOST IMPORTANT!
