CBSD ELEMENTARY SCHOOL ART SHOW

The elementary students at Central Bucks School District present their 2020-2021 District Art Show. This time-honored event showcases artwork from each of the 15 elementary schools in the district, created by students learning both in-person and virtually. Kindergarten through 6th grade students completed projects designed to develop and emphasize problem-solving and critical thinking skills. Students rose to the challenge of observing their world in new ways. We welcome families and loved ones to enjoy and share this virtual show.

CBSD MIDDLE SCHOOL ART SHOW

This year at the middle school level, both virtual & in-person students explored & built upon ideas, techniques, & skills that they studied at the elementary level. 7th and 8th grade artists explored art history & movements from Art Nouveau to Pop Art while working with a variety of materials including oil pastel, colored pencil, watercolor, mixed media, & more. In 9th grade, students had the choice to explore the courses of 3-Dimensional Design, Photography, Ceramics, and Drawing and Painting. Despite a year of challenges, students worked through some very unique learning situations. All students both in the classroom and at home were able to rise above and produce incredible works of art!

CBSD HIGH SCHOOL ART SHOW

This year has had a range of challenges, but art students across all three Central Bucks high schools still had opportunities to be creative, productive, and make meaningful art. From AP Studio Art, Ceramics, Digital Art, Drawing & Painting, Fine Arts, & Photography courses, this year's District Art Show is highlighting some of the outstanding art from all three high schools. Please join us in celebrating these artists and enjoy their artwork!
