

Goal: To ensure that AirServer is working properly in classrooms.

*Best Practice: Restart your laptop and iPad every 1-2 days to ensure ideal user experience.

Step 1: Disable Miracast and Chrome Cast in AirServer settings by clicking on the AirServer icon located in your tray.

OK Cancel Apply Help

Step 2 (a): When needed, you can restart AirServer on your laptop.

Step 3: If step three doesn't resolve the issue, restart the iPad.

Step 4: If you are still having issues, restart your laptop.

Step 5: Steps 2-4 may need to be repeated periodically as issues arise.
