All students and staff will wear a face covering while in school, in accordance with the Commonwealth Order Requiring Universal Face Coverings. More details may be found in the health and safety plan.

1. Teachers will discuss face coverings as part of their regular back to school conversations with students.
2. Acceptable face coverings are defined in the order FAQ, and include a cloth face covering and/or face shield.
3. Students will receive mask breaks throughout the day.
4. The district will require a note from a medical doctor/physician assistant if a student cannot mask. The note need not identify a diagnosis or the reason why a student cannot mask, but only that the student cannot mask.
