

Phased School Reopening Health and Safety Plan Template

Each school entity must create a Health and Safety Plan which will serve as the local guidelines for all instructional and non- instructional school reopening activities. As with all emergency plans, the Health and Safety Plan developed for each school entity should be tailored to the unique needs of each school and should be created in consultation with local health agencies. Given the dynamic nature of the pandemic, each plan should incorporate enough flexibility to adapt to changing conditions. The templates provided in this toolkit can be used to document a school entity's Health and Safety Plan, with a focus on professional learning and communications, to ensure all stakeholders are fully informed and prepared for a local phased reopening of school facilities. A school entity's Health and Safety Plan must be approved by its governing body and posted on the school entity's publicly available website prior to the reopening of school. School entities should also consider whether the adoption of a new policy or the modification of an existing policy is necessary to effectively implement the Health and Safety Plan.

Each school entity should continue to monitor its Health and Safety Plan throughout the year and update as needed. All revisions should be reviewed and approved by the governing body prior to posting on the school entity's public website.

Table of Contents

Health and Safety Plan: Central Bucks School District	3
Type of Reopening	4
Pandemic Coordinator/Team	6
Key Strategies, Policies, and Procedures	10
Cleaning, Sanitizing, Disinfecting, and Ventilation	11
Social Distancing and Other Safety Protocols	16
Monitoring Student and Staff Health	36
Other Considerations for Students and Staff	47

Facilities Cleaning, Sanitizing, Disinfecting and Ventilation	72
Social Distancing and Other Safety Protocols	73
Monitoring Student and Staff Health	75
Other Considerations for Students and Staff	76
Health and Safety Plan Governing Body Affirmation Statement	78

This resource draws on a resource created by the Council of Chief State School Officers (CCSSO) that is based on official guidance from multiple sources to include: the Centers for Disease Control and Prevention, the White House, American Academy of Pediatrics, Learning Policy Institute, American Enterprise Institute, Rutgers Graduate School of Education, the World Health Organization, the Office of the Prime Minister of Norway as well as the departments of education/health and/or offices of the governor for Idaho, Montana, New York, Texas and Washington, DC.

Health and Safety Plan: **Central Bucks School District**

All decision-makers should be mindful that as long as there are cases of COVID-19 in the community, there are no strategies that can completely eliminate transmission risk within a school population. The goal is to keep transmission as low as possible to safely continue school activities. All school activities must be informed by [Governor Wolf's Process to Reopen Pennsylvania and Recommendations for Pre-K to 12 Schools Following Identification of a Case\(s\) of COVID-19](#).

The administration has categorized reopening into three broad phases: red, yellow, or green. Although these designations are no longer used by the state, they are left in this plan in the event those modes and/or procedures are needed. Presently, CBSD has attested that we will follow the Pre-K to 12 Schools Following Identification of a Case(s) of COVID-19 as outlined by the governor. Depending upon the public health conditions in any county within the Commonwealth, there could be additional actions, orders, or guidance provided by the Pennsylvania Department of Education (PDE) and/or the Pennsylvania Department of Health (DOH) designating the county as being in the red, yellow, or green phase. Some counties may not experience a straight path from a red designation, to a yellow, and then a green designation. Instead, cycling back and forth between less restrictive to more restrictive designations may occur as public health indicators improve or worsen. This means that your school entity should account for changing conditions in your local Health and Safety Plan to ensure fluid transition from more to less restrictive conditions in each of the phase requirements as needed.

Type of Reopening

Key Questions

- How do you plan to bring students and staff back to physical school buildings, particularly if you still need social distancing in place?

Students and staff will be brought back to the physical school buildings after consideration of the following factors:

- The district will follow recommendations from the Pennsylvania Department of Health, the Bucks County Department of Health, and the CDC that provide clear safety regulations and protocols for the return of students and staff.
 - The district will appoint committees comprised of a variety of stakeholders to complete the PA Phased Reopening Action Plans for the traditional, hybrid, and Online models of instruction.
 - The district and individual schools will ensure that Pennsylvania State Department of Health, Bucks County Department of Health, CDC, and WHO recommendations are in place and communicated with all stakeholders. This will include communicating and educating all stakeholders on district protocols and best practices for social distancing and ensuring that proper cleaning protocols are in place by our FEMO department.
- How did you engage stakeholders in the type of re-opening your school entity selected?

The district created six action plan committees comprised of teachers and staff from a variety of stakeholder groups, including teachers, nurses, facilities, building administration, district office personnel, and representatives from all departments in central office. In addition to committee work, surveys were sent to parents and staff to gather feedback on safety and curricular decisions as well as the different options for reopening schools.
 - How will you communicate your plan to your local community?

The District sends regular communication to the staff and community to inform the stakeholders of reopening plans. The health and safety action plan will be presented at the CBSD school board meeting on July 21st, 2020.
 - Once you reopen, what will the decision-making process look like to prompt a school closure or other significant modification to operations?

The decision-making process to make modifications will be based on guidelines and recommendations set forth from the Pennsylvania Department of Health, the Bucks County Department of Health, and the CDC. The superintendent and the pandemic coordinator will then communicate with the school board, CBSD staff, and the community to share specific plans regarding a closure or modifications. Factors would include, but would not be limited to:

- Level of community transmission in the county
- The size of our schools
- The total number of cases in each school over a rolling 14-day period
- Recommendation of Bucks County Health Department
- Number of professional and support staff unavailable due to variety of factors

*Note: This plan is subject to change based on the changing requirements from the CDC, PA DOH, and PDE. The administration is given the authority from the Board of Directors to adjust this plan as required and to report any changes to the Board of School Directors.

Based on your county's current designation and local community needs, which type of reopening has your school entity selected? (SELECT ONE BOX BELOW)

- Total reopen for all students and staff (but some students/families opt for distance learning out of safety/health concern).
- Scaffolded reopening: Some students are engaged in in-person learning, while others are distance learning (i.e., some grade levels in-person, other grade levels Online learning).
- Blended reopening that balances in-person learning and Online learning for all students (i.e., alternating days or weeks).
- Total Online learning for all students. (Plan should reflect future action steps to be implemented and conditions that would prompt the decision as to when schools will re-open for in-person learning).

Anticipated launch date for in-person learning (i.e., start of blended, scaffolded, or total reopening): August 31, 2020

Pandemic Coordinator/Team

Each school entity is required to identify a pandemic coordinator and/or pandemic team with defined roles and responsibilities for health and safety preparedness and response planning during the phased reopening of schools. The pandemic coordinator and team will be responsible for facilitating the local planning process, monitoring implementation of your local Health and Safety Plan, and continued monitoring of local health data to assess implications for school operations and potential adjustments to the Health and Safety Plan throughout the school year. To ensure a comprehensive plan that reflects the considerations and needs of every stakeholder in the local education community, LEAs are encouraged to establish a pandemic team to support the pandemic coordinator. Inclusion of a diverse group of stakeholders is critical to the success of planning and implementation. LEAs are highly encouraged to make extra effort to engage representatives from every stakeholder group (i.e., administrators, teachers, support staff, students, families, community health official or other partners), with a special focus on ensuring that the voices of underrepresented and historically marginalized stakeholder groups are prioritized. In the table below, identify the individual who will serve as the pandemic coordinator and the stakeholder group they represent in the row marked “Pandemic Coordinator”. For each additional pandemic team member, enter the individual’s name, stakeholder group they represent, and the specific role they will play in planning and implementation of your local Health and Safety Plan by entering one of the following under “Pandemic Team Roles and Responsibilities”:

- **Health and Safety Plan Development:** Individual will play a role in drafting the enclosed Health and Safety Plan;
- **Pandemic Crisis Response Team:** Individual will play a role in within-year decision making regarding response efforts in the event of a confirmed positive case or exposure among staff and students; or
- **Both (Plan Development and Response Team):** Individual will play a role in drafting the plan and within-year decision making regarding response efforts in the event of confirmed positive case.

Individual(s)	Stakeholder Group Represented	Pandemic Team Roles and Responsibilities (Options Above)
Abram Lucabaugh	Acting Superintendent	Response Team
Nadine Garvin	Assistant Superintendent	Response Team
Allison Kuchler	Director of Special Education	Both
Robert Kleimenhagen, Jr.	Director of Facilities and Management Operations	Both
Brian Loftus	Business Administrator	Both
Cheryl Leatherbarrow	Director of Student Services	Pandemic Coordinator , Response Team
Danielle Turner	District Athletic Director	Both
Andrea DiDio-Hauber	Director of Human Resources	Both
Alicen Cervellero	Supervisor of Special Education	Both
Janet Kueny	Supervisor of Special Education	Both
Lori Casey	Director of Transportation	Both
Leanne Cichelli	Nurse Coordinator, Certified School Nurse	Response Team
Donna Radice	Certified School Nurse	Health & Safety Plan Development
Kristen Mabin	Certified School Nurse	Health & Safety Plan Development
Sheila Kelly	Certified School Nurse	Health & Safety Plan Development
Carol Klein	Certified School Nurse	Health & Safety Plan Development
Suzanne Moffat	FEMO District Operations Coordinator	Both
David Gieringer	FEMO District Shift Supervisor	Both

Lensi Nikolov	Supervisor – Reading, Federal Programs and English Language Development	Health and Safety Plan Development
Erin Corrigan	Elementary Teacher, CBEA President	Health & Safety Plan Development
Alyssa Walloff	Curriculum Supervisor – English	Health and Safety Plan Development
Shara Smith	Supervisor of Special Education	Health and Safety Plan Development
Andrew Smith	Technology and Innovation Network Manager	Health & Safety Plan Development
Gina Marks	Before and After Care	Health & Safety Plan Development
Kevin Shillingford	Middle School Principal	Both
Kyle Dudley	Middle School Assistant Principal	Both
Helen Zaleski	High School House Principal	Both
Tim Donovan	High School Principal	Both
Nick Allgyer	High School Teacher	Health & Safety Plan Development
Joe Piselli	High School House Principal	Both
Jim Massey	High School Teacher	Health and Safety Plan Development
Rob Meletti	Middle School Teacher	Health and Safety Plan Development
Andrea Bellavance	Middle School Teacher	Health & Safety Plan Development
Matt Powell	Middle School Teacher	Health & Safety Plan Development
John Heisey	High School Teacher	Health and Safety Plan Development
Bridget Pustay	Elementary Principal	Health and Safety Plan Development
Jesse Brosious	Elementary Teacher	Health and Safety Plan Development

Brian Finger	Elementary School Principal	Both
Kevin Cochran	Elementary Principal	Both
Kate Deibert	Elementary Teacher	Health and Safety Plan Development
Kelley Dougherty	Elementary School Teacher	Health & Safety Plan Development
Cindy Jansen	Elementary School Teacher	Health & Safety Plan Development
Michael Wolf	Elementary School Teacher	Health & Safety Plan Development
Kate Fantaskey	Elementary School Principal	Both
Jim Brexler	CEO Doylestown Hospital	Health & Safety Plan Development
Dr. Scott Levy	VP and Chief Medical Officer, Doylestown Hospital	Health & Safety Plan Development
Sheri Putnam	VP of Strategic Initiatives, Doylestown Hospital	Health & Safety Plan Development
Barb Hebel	VP of Human Resources, Doylestown Hospital	Health & Safety Plan Development
Bridget McEnrue	Director of Infection Prevention, Doylestown Hospital	Health & Safety Plan Development
Kellye Remshifski	Wellness & Outreach Manager, Doylestown Hospital	Health & Safety Plan Development
Allyson Gilmore	Director of Strategy and Outreach, Doylestown Hospital	Health & Safety Plan Development
Dr. Louis Marino	Chief Medical Examiner, Central Bucks School District	Health & Safety Plan Development

Others who made contributions to the document since its inception:

John Kopicki, Ed.D. Former Superintendent

Alexis McGloin, Ed.D. Former Assistant Superintendent

Key Strategies, Policies, and Procedures

Once your LEA has determined the type of reopening that is best for your local community and established a pandemic coordinator and/or pandemic team, use the action plan templates on the following pages to create a thorough plan for each of the requirements outlined in the Pennsylvania Department of Education’s Preliminary Guidance for Phased Reopening of PreK-12 Schools.

For each domain of the Health and Safety Plan, draft a detailed summary describing the key strategies, policies, and procedures your LEA will employ to satisfy the requirements of the domain. The domain summary will serve as the public-facing description of the efforts your LEA will take to ensure health and safety of every stakeholder in your local education community. Thus, the summary should be focused on the key information that staff, students, and families will require to clearly understand your local plan for the phased reopening of schools. You can use the key questions to guide your domain summary.

For each requirement within each domain, document the following:

- **Action Steps under Yellow Phase:** Identify the discrete action steps required to prepare for and implement the requirement under the guidelines outlined for counties in yellow. List the discrete action steps for each requirement in sequential order.
- **Action Steps under Green Phase:** Identify the specific adjustments the LEA or school will make to the requirement during the time period the county is designated as green. If implementation of the requirement will be the same regardless of county designation, then type “same as Yellow” in this cell.
- **Lead Individual and Position:** List the person(s) responsible for ensuring the action steps are fully planned and the school system is prepared for effective implementation.
- **Materials, Resources, and/or Supports Needed:** List any materials, resources, or support required to implement the requirement.
- **Professional Development (PD) Required:** In order to implement this requirement effectively, will staff, students, families, or other stakeholders require professional development?

In the following tables, an asterisk (*) denotes a mandatory element of the plan. All other requirements are highly encouraged to the extent possible.

Cleaning, Sanitizing, Disinfecting, and Ventilation

Key Questions

- **How will you ensure the building is cleaned and ready to safely welcome staff and students?**

TRADITIONAL, HYBRID, & ONLINE

The Facilities & Energy Management Operations Department (FEMO) is responsible for the daily cleaning and disinfection of all District buildings. Custodial staff have been trained on CDC approved guidelines. Summer cleaning inspection checklists have been developed by the FEMO Department, and all areas of a building will be inspected for completion of all assigned tasks prior to reopening.

- **How will you procure adequate disinfection supplies meeting OSHA and [CDC requirements for COVID-19](#)?**

TRADITIONAL, HYBRID, & ONLINE

The District procures EPA approved disinfection supplies from Hillyard.

- **How often will you implement cleaning, sanitation, disinfecting, and ventilation protocols/procedures to maintain staff and student safety?**

TRADITIONAL, HYBRID, & ONLINE

FEMO custodial staff will complete daily cleaning, sanitation, and disinfecting as outlined in the COVID-19 Job Cards. Supervisors will be responsible for enforcement of protocols/procedures to maintain staff and student safety.

- **What protocols will you put in place to clean and disinfect throughout an individual school day?**

TRADITIONAL, HYBRID, & ONLINE

FEMO Facilities Specialists/Building Utility staff will conduct daily cleaning, sanitation, and disinfection as outlined in the COVID-19 Job Cards.

- **Which stakeholders will be trained on cleaning, sanitizing, disinfecting, and ventilation protocols? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?**

TRADITIONAL, HYBRID, & ONLINE

FEMO staff have all been trained on the proper use of cleaning, sanitizing, and disinfection protocols. COVID-19 Job Cards have been distributed to all staff. On-going training will continue as needed to ensure safety for staff and students. Ventilation protocols will be monitored by the FEMO HVAC Mechanics to increase air circulation using the District building automation system, where possible, and Facilities Specialists/Building Utility staff will be encouraged to keep windows open when possible.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
* Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students (i.e., restrooms, drinking fountains, hallways, and transportation)	<p><u>HYBRID, & ONLINE</u></p> <ul style="list-style-type: none"> • Until further notice, postpone the use of indoor facilities by outside groups until all phases are removed. • FEMO custodial staff follow all daily cleaning/disinfection tasks outlined in the COVID-19 Job Cards for schools & restrooms. 	<p><u>TRADITIONAL, HYBRID, & ONLINE</u></p> <ul style="list-style-type: none"> • Same as yellow phase; except the following: • Playground equipment at elementary schools will remain open during the green phase. Where possible/available, increase air exchanges & ventilation in classrooms and common areas using windows and the building automation system. Increase HVAC filter changes for improved indoor air quality Interior doors to remain open to increase circulation of air flow when possible. 			<ul style="list-style-type: none"> FEMO staff keep all windows open when possible. Maintain adequate inventory of filters. <p><u>Resources</u></p> <ul style="list-style-type: none"> CDC Guidance for Reopening Buildings After Prolonged Shutdown 	

Social Distancing and Other Safety Protocols

Key Questions

- **How will classrooms/learning spaces be organized to mitigate spread?**

TRADITIONAL & HYBRID

The minimum three-foot distance or six-foot distance for the hybrid model, will be imposed to the greatest extent feasible.

- All desks will face the instructor
- All other furniture will be removed from the classroom except for the teacher desk
- Large group instructional spaces will be utilized when class size exceeds the maximum number of desks

ONLINE

If teachers are teaching in the school setting during Online learning, classrooms will be configured to allow for the teacher to socially distance from other individuals in the classroom. This includes keeping desks a minimum of three feet apart based on the recommendation of the Bucks County Health Department.

- **How will you group students with staff to limit the number of individuals who come into contact with each other throughout the school day?**

TRADITIONAL & HYBRID

Students will receive instruction within re-configured classroom spaces that promote social distancing for both students and staff members. The needs of all students and staff members will determine the re-configuration when planning instructional spaces.

At the elementary level, it is suggested that specials are held within homeroom class settings to reduce the use of shared space, materials, and to minimize transitioning in the hallways. The master schedule at the elementary level will also reflect lunches and recesses for grade levels limited to that grade level only to reduce the intermixing of students and staff and to promote social distancing. Students will transport their technological devices to and from school. If a backpack is necessary, it should be hung on the back of the student's chair to avoid congregating at closets and/or shared spaces.

Secondary students will not have a lunch period during school. Grab and Go lunches and breakfasts will be available for all students at dismissal and arrival times, respectively. Students will not use lockers or locker rooms. Signage promoting social distancing will be provided in the classrooms, restrooms, hallways, sanitizing stations, cafeteria, food court, and communal spaces for both staff and students to remind individuals to limit clustering:

- 1- Limit the number of students in each space
- 2- Mark areas for traffic flow

3- Other necessary distancing procedures

At both the elementary and secondary levels, strict traffic patterns will be enforced within the hallways to limit contact among individuals.

ONLINE

Staff areas, such as the main office and guidance office, will be configured to allow for minimal contact with colleagues. Desks and other working areas will be kept a minimum of three feet apart for students and six feet apart for adults based on the recommendation of the Bucks County Health Department.

- **What policies and procedures will govern use of other communal spaces within the school building?**

TRADITIONAL & HYBRID

At the elementary level, students will be seated at a minimum of six feet apart in the cafeteria where feasible. Students will be assigned to seats within their homerooms at a minimum of three feet apart, where feasible, facing the same direction. Where possible, additional open spaces will be utilized to allow for distancing. If the use of the cafeteria and other open spaces is not feasible, students will eat in classrooms. In terms of using the rest room, a schedule limiting the amount of rest room use should be implemented, where classrooms are assigned to use specific restrooms.

The number of lunch periods should also be increased to promote social distancing. At the secondary level students will sit at a minimum of three feet apart and receive a grab and go lunch at dismissal. Bell schedules may be staggered at the secondary level and strict traffic patterns will be enforced in the hallways. Visuals may include a middle divider, arrows directing traffic, and one-way hallways where possible. Locker use will be prohibited. The use of the locker rooms will be prohibited. Congregating in common areas will also be prohibited. Restroom use between periods will be discouraged.

Staff break rooms and communal spaces must be re-configured to allow for proper distancing.

ONLINE

The number of staff in communal spaces (copy rooms, planning centers) will be reconfigured to allow for staff to social distance from colleagues. The number of staff allowed in each area will be limited based on the size and use of each space. Staff will be encouraged to bring their own food and the sharing of communal resources, such as silverware, condiments, hole

punches, and other items will be discouraged. Staff will be asked to clean all areas after use and cleaning materials will be provided in each area where common resources are utilized (printers, copy machine, coffee makers, etc.). Staff members will be housed in their own classrooms and large group meetings will be conducted virtually or limited in attendee number with social distancing protocols in place. All staff will follow the [PA Orders on Face Coverings](#). There is no handshaking or physical touching with other staff members.

- **How will you utilize outdoor space to help meet social distancing needs?**

TRADITIONAL & HYBRID

Outdoor spaces may be utilized for lunches, when appropriate, to promote social distancing of staff and/or students. Outdoor spaces may be used for instructional purposes. Physical education classes may be held outdoors, weather dependent. At the elementary level, the outdoor space will be used for recess and limited to one grade level at a time. A schedule should be developed and shared with staff to best manage the availability of outdoor spaces across the campus. Necessary staffing should also be considered when utilizing outdoor spaces.

ONLINE

Staff members can utilize outdoor spaces for lunch or working as appropriate. All social distancing protocols are in place whether inside or outside of the school building.

- **What hygiene routines will be implemented throughout the school day?**

TRADITIONAL, HYBRID, & ONLINE

Staff and students will be provided with time and resources throughout the school day to implement hygiene routines. Sanitizing stations will be placed throughout the building to promote proper hygiene. Staff and students will wash hands when possible or sanitize hands before/after lunch, before/after recess, and before/after other transitional times. Signage promoting proper hygiene should be readily visible in locations such as classrooms, restrooms, hallways, sanitizing stations, communal spaces for both staff and students, etc. If teachers are teaching online in the building and fielding outside of their classroom, they should wear a face covering and follow social distancing protocol outside their own classrooms. Facilities staff will follow

cleaning routines set with the traditional model and clean high touch surfaces multiple times throughout the day such as doorknobs, handles, and bathrooms.

- **How will you adjust student transportation to meet social distancing requirements?**

TRADITIONAL & HYBRID

Standard buses will allow for two students per seat, with students required to wear masks. Distancing on buses and vans providing special transportation will be evaluated on a case-by-case basis. Buses and vans will be disinfected weekly and high-touch areas will be cleaned with wipes between each run. Staff will be in place to monitor and reinforce expectations.

- **What visitor and volunteer policies will you implement to mitigate spread?**

TRADITIONAL, HYBRID, & ONLINE

No visitors or volunteers will be allowed to enter the school building unless considered essential. A list of essential visitors should be maintained and updated to reflect those who are granted access. All essential visitors will be required to follow the same safety guidelines as all other school personnel. Utilize virtual meeting formats whenever possible.

- **Will any of these social distancing and other safety protocols differ based on age and/or grade ranges?**

TRADITIONAL & HYBRID

Students in elementary schools will receive their related arts classes in their home classroom.

ONLINE

Safety protocols would be consistent for all students and staff in the Online learning model. Students would remain at home in Online learning but should still follow the protocols provided by the school district regarding social distancing.

- **Which stakeholders will be trained on social distancing and other safety protocols? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?**

TRADITIONAL & HYBRID

Virtual professional development will be provided for staff members prior to the start of the school year for students. Asynchronous staff training may also be accessed through SafeSchools. Staff training should reoccur monthly, or as needed, to review and adjust safety procedures. Staff and students will be given guidelines for hygiene practices including the frequency and manner of hand sanitizing and handwashing. Staff and students, as appropriate, will be trained on the use of face coverings. Students will receive explicit instruction for personal hygiene including, but not limited to coughing, sneezing, wiping runny noses, picking up items from the floor, placing non-edible items in mouths, touching faces, touching one another, etc. Staff and students will be instructed on the use of all signage throughout locations and expectations for use of this signage. Families will receive education on health rules and expectations including ways to practice safe hygiene at home and social distancing through the school website, emails, and additional communications.

ONLINE

All stakeholders (students, staff, and parents/caregivers) will be trained on safety and social distancing protocols. Professional development and resources will be provided to staff prior to the return to school and at staff development days. Safe Schools training modules will be utilized for training and preparedness and as a measure of staff understanding. Students and parents/caregivers will be provided online resources that will include social distancing and other health and safety best practices. All students will be required to affirm they have watched instructional videos before they return to the school setting.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
<p>* Classroom/ learning space occupancy that allows for 6 feet of separation among students and staff throughout the day, to the maximum extent feasible</p>	<p style="text-align: center;"><u>HYBRID</u></p> <ul style="list-style-type: none"> • Minimum six-foot distancing between students, where feasible • Assigned seating in all classrooms • Re-configure classroom setups as collaborative spaces with traditional desks/chairs • Remove all excess furniture from classroom • Desks will all face instructor • Utilize open spaces and outdoor spaces when appropriate, maintaining a six-foot distance, where feasible. • Staff must maintain six- foot distancing in planning centers and other communal areas, when feasible • Consider adult spacing needs when there are additional supports in a classroom (EA's, PCA's, IA's, related service providers, etc.). Encourage related services to be a pull-out model whenever possible. 	<p style="text-align: center;"><u>TRADITIONAL & HYBRID</u></p> <ul style="list-style-type: none"> • Same as Yellow except the traditional model will have a minimum of three feet distance between students, where feasible 	<p style="text-align: center;"><u>TRADITIONAL & HYBRID</u></p> <ul style="list-style-type: none"> • Principals • FEMO Building Staff 	<p style="text-align: center;"><u>TRADITIONAL & HYBRID</u></p> <ul style="list-style-type: none"> • Traditional desks/ chairs • Removal of excess furniture; personal staff furniture must be returned to employee's home • Social distancing markers for floor, where applicable • Posters & signage for placement throughout buildings • Laptops and other technology to access virtual meetings. 	<p style="text-align: center;"><u>T & H</u></p> <p>Yes</p> <p>All staff on social distancing guidelines; cleaning procedure</p> <p>Include in back to school information.</p>

Monitoring Student and Staff Health

Key Questions

- **How will you monitor students, staff, and others who interact with each other to ensure they are healthy and not exhibiting signs of illness?**

TRADITIONAL, HYBRID, & ONLINE

Staff and parents will be given guidelines about sign and symptoms of COVID19. It will be expected that staff and parents will self-monitor prior to arrival at school. Students or staff that exhibit signs or symptoms during the school day will report to the health office with a face covering.

First, the student or teacher should leave the classroom immediately, put on a mask, and report to the nurse's office. The nurse should fully assess the student/teacher, including a temperature check and questions about any pre-existing conditions that may explain the symptoms. As the situation warrants, the nurse should contact a parent/guardian to arrange for transportation off-site.

- **Where, to whom, when, and how frequently will the monitoring take place (e.g. parent or child report from home or upon arrival to school)?**

TRADITIONAL & HYBRID

Parent will monitor their child/children daily for fever and/or other signs of COVID. Once in school, staff will do a quick check of students. All staff will report self-monitoring daily, this will be reported electronically and will be sent to the administration staff and nursing staff for that building.

Students and staff returning from isolation and quarantine will report to the School Nurse prior to returning to learn/work.

ONLINE

All stakeholders will self-monitor in the home setting. Parents/caregivers will assist in the monitoring and screening of students. Self-monitoring should take place daily based on the best practices provided by the Bucks County Department of Health and the CDC. All stakeholders and household members are required to report confirmed cases to the school district.

- Students and household members will contact the school nurse, counselor, and principal and complete a standardized form to ensure cases are confidentially recorded and validated.

- Staff members are required to report confirmed cases of self and/or household members to the district Human Resources department and school principal.

If students transition to the traditional or hybrid setting from the Online learning setting after the school year has started, parents will perform a symptoms screening check and confirm. Once students return, parents are advised provide a symptom screening before getting on the bus, walking to school, or being transported ([FAQ Bucks County Department of Health Reopening Guidance](#)).

- **What is the policy for quarantine or isolation if a staff, student, or other member of the school community becomes ill or has been exposed to an individual confirmed positive for COVID-19?**

TRADITIONAL, HYBRID, & ONLINE

Students or staff who exhibit signs or symptoms during the school day will be placed in isolation through the directive of the school nurse. An isolation area will be identified in each Health Office for students and staff with symptoms of COVID. Student/staff with signs of infection will be masked and isolated until arrangements are made for dismissal. The nurse will clean and sanitize the area between each student/staff member.

Any staff, student, or other member of the school community who has become ill will be evaluated in an isolation room. If a student or staff member is not wearing a mask, a mask should be applied immediately while placed in an isolation room. Health room staff should consider an increased level of PPE (i.e., use of N95 respirator, gown, gloves) while interacting with students/faculty and staff placed in isolation. School staff and families will follow the protocol for safely transporting sick children home. The district will notify the Bucks County Health Department of all known positive COVID-19 tests.

If a student/staff member at school is exposed, and they have not been “fully vaccinated”¹ or immune due to having had COVID-19 in the last 90 days, they are a close contact. Close contacts will report to the Health Room where they will be assessed and asked about COVID-19 symptoms experienced presently and over the past 24 hours.

¹ According the CDC, a person is “[fully vaccinated](#)” ≥2 weeks following receipt of the second dose in a 2-dose series, or ≥2 weeks following receipt of one dose of a single-dose vaccine (Retrieved on March 9, 2021 from <https://www.cdc.gov/vaccines/covid-19/info-by-product/clinical-considerations.html>).

- If non-symptomatic, they will remain in school and follow their normal schedule after agreeing to the following rules of modified quarantine:
 - Wear mask at all times except when eating/drinking which must occur 6 feet or more away from others.
 - Watch for and report any symptoms should they occur. If this should happen, the students will follow the plan below for symptomatic close contacts.
 - NOTE:
 - Students who cannot wear a mask are not able to have modified quarantine.
 - Students who do not adhere to the masking requirements for modified quarantine will not be permitted to stay in school. They will learn from home for the remainder of their 10 or 7 days from exposure (see below)
- If symptomatic, student/staff member will be sent home until the BCDH determines quarantine. During their time at home, they will have access to virtual learning/working.
- If BCDH determines a student or staff member is on modified quarantine, they follow the steps noted above for modified quarantine.
- If BCDH determines a student or staff member is on quarantine or ongoing quarantine, they must do the following:
 - Learn/work from home (so long as they feel well) for 10 days. If a person who is on quarantine has a negative test on day 5, 6 or 7 of quarantine, their quarantine can be shortened to 7 days. The district will consult with the Bucks County DOH on decisions impacting the isolation and quarantine of students/staff.
 - If a person is on “ongoing quarantine”² as determined by BCDH, they are not able to get a negative test and return after day 7.

If a student or staff is “presumed positive” by a medical professional, that student/staff will remain out of school for 10 days from day of symptom onset or known exposure to a positive COVID Case. Close contacts³ to the presumed positive person will be notified and follow the steps noted above for close contacts—asymptomatic or symptomatic.

² “Ongoing quarantine” is a determination used by BCDH. It is typically assigned to members within home with a person who is positive for COVID-19 who is not able to isolate within the home.

³ [Close Contact, as defined by the CDC](#), means that a person was within 6 feet for more than 15 minutes with a COVID Case.

- **Which staff will be responsible for making decisions regarding quarantine or isolation requirements of staff or students?**

The School Nurse has the primary responsibility, with support/guidance from the principal, for responding to students/staff in accordance with this Health & Safety Plan, who have symptoms of COVID-19, have become documented cases of COVID-19, or have been in close contact to cases of COVID-19. This information is reported to the Director of Student Services who collaborates with BCDH to ensure that infected persons are isolated and close contacts (excluding those that have tested positive for COVID-19 within the past 90 days) follow either modified quarantine or quarantine rules.

- **What conditions will a staff member or student confirmed to have COVID-19 need to meet to safely return to school? How will you accommodate staff who are unable to/uncomfortable to return?**

A medical note from health care provider or a release date from the Department of Health will be required for returning to school after a confirmed case of COVID. The student/staff member will need to report directly to the School Nurse upon returning to school to be evaluated.

Staff and students may return after 10 days have passed (or after 7 days with a negative test result on day 5+) since the symptoms first appeared and being fever-free for 24 hours or based on current PADOH guidelines, if different.

An employee is to discuss inability to return with their medical provider and the human resources department.

- **How will you determine which students are willing/able to return? How will you accommodate students who are unable or uncomfortable to return?**

Conversation with parent regarding student's recovery and conversations with medical provider will occur as needed. If medical provider confirms inability to come back to school, homebound type of education will be provided.

- **When and how will families be notified of confirmed staff or student illness or exposure and resulting changes to the local Health and Safety Plan?**

In consultation with the Bucks County Health Department, the district will provide clear, consistent communication to notify families of COVID-19 case management that aligns to PA DOH/CDC Resources and Guidelines. The district will continue to

use the communication media that the community is used to, including website communication, text message blasts, email blasts, etc.

- **Which stakeholders will be trained on protocols for monitoring student and staff health? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?**

Parent education regarding new guidelines/protocols will occur. Staff will receive training regarding signs and symptoms of the illness, self-monitoring, and student observations. The nurses will be trained on the tracking system. Staff will receive training regarding signs and symptoms of illness, self-monitoring, and student observations. This training will occur prior to school re-opening.

Other Considerations for Students and Staff

Key Questions

- What is the local policy/procedure regarding face coverings for staff? What is the policy/procedure for students?

TRADITIONAL, HYBRID, & ONLINE

CBSD will follow the current PA Orders on Face Coverings. [Orders of the Secretary of Pennsylvania Department of Health requiring universal face coverings](#). All staff and students entering the school building will be required to wear a face covering. Staff teaching from the school building, support staff, and students will wear a face covering. Face coverings will be made available to individuals who enter the school building.

- **What special protocols will you implement to protect students and staff at higher risk for severe illness?**

TRADITIONAL & HYBRID

Consider developing a student-specific plan that facilitates his/her safe return to school using increased social distancing strategies, where feasible, for the student and staff. This may include providing students with a Distance Learning platform. All staff may wear clear face shields in addition to a face covering when meeting face-to-face, teaching, or interacting with others in classroom and congregate settings.

Require hand sanitizing or hand washing prior to eating and provide hand sanitizer in classrooms as well as encourage frequent hand washing and hand sanitizing.

If possible, students should bring their own lunch and eat in their classrooms. If in cafeteria, students should be seated on the same side of the table.

ONLINE

CBSD will provide resources to all stakeholders to educate them on who is at a higher risk, the signs and symptoms and the best practices to follow to limit exposure to COVID-19. Students and parents/caregivers will have access to the school certified nurse and resources provided if they have specific questions or need guidance during Online learning. All stakeholders will be provided ongoing communication and resources at the school and district level. These will be made available on the school and district website and stakeholders will be provided with reminders and updates through the district website, email, Facebook, and Twitter.

- How will you ensure enough substitute teachers are prepared in the event of staff illness?

TRADITIONAL, HYBRID, & ONLINE

SafeSchools training module, continue to advertise for additional substitutes, hire in a timely manner for the start of the school year.

- How will the LEA strategically deploy instructional and non-instructional staff to ensure all students have access to quality learning opportunities, as well as supports for social emotional wellness at school and at home?

TRADITIONAL, HYBRID, & ONLINE

Ensure that students are provided FAPE and continue to receive access to therapy and related services while in the school. Maximize continuity among those providing services and/or use virtual care for service provision to decrease exposures. Provide environmental (e.g. smaller class size) and classroom supports for those children who may need assistance with hygiene measures, such as some children with behavioral/developmental disorders.

Health and Safety Plan Professional Development

The success of your plan for a healthy and safe reopening requires all stakeholders to be prepared with the necessary knowledge and skills to implement the plan as intended. For each item that requires professional development, document the following components of your professional learning plan.

- **Topic:** List the content on which the professional development will focus.
- **Audience:** List the stakeholder group(s) who will participate in the professional learning activity.
- **Lead Person and Position:** List the person or organization that will provide the professional learning.
- **Session Format:** List the strategy/format that will be utilized to facilitate participant learning.
- **Materials, Resources, and or Supports Needed:** List any materials, resources, or support required to implement the requirement.
- **Start Date:** Enter the date on which the first professional learning activity for the topic will be offered.
- **Completion Date:** Enter the date on which the last professional learning activity for the topic will be offered.

Health and Safety Plan Communications

Timely and effective family and caregiver communication about health and safety protocols and schedules will be critical. Schools should be particularly mindful that frequent communications are accessible in non-English languages and to all caregivers (this is particularly important for children residing with grandparents or other kin or foster caregivers). Additionally, LEAs should establish and maintain ongoing communication with local and state authorities to determine current mitigation levels in your community.

Health and Safety Plan Summary: **Central Bucks School District**

Anticipated Launch Date: **August 31, 2020**

Use these summary tables to provide your local education community with a detailed overview of your Health and Safety Plan. LEAs are required to post this summary on their website. To complete the summary, copy and paste the domain summaries from the Health and Safety Plan tables above.

Facilities Cleaning, Sanitizing, Disinfecting and Ventilation

Requirement(s)	Strategies, Policies and Procedures
* Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students (i.e., restrooms, drinking fountains, hallways, and transportation)	The Facilities & Energy Management Operations Department (FEMO) is responsible for the daily cleaning and disinfection of all District buildings. Custodial staff have been trained on CDC approved guidelines. Summer cleaning inspection checklists have been developed by the FEMO Department, and all areas of a building will be inspected for completion of all assigned tasks prior to reopening. FEMO custodial staff will complete daily cleaning, sanitation, and disinfecting as outlined in the COVID-19 Job Cards. Supervisors will be responsible for enforcement of protocols/procedures to maintain staff and student safety. FEMO Facilities Specialists/Building Utility staff will conduct daily

Requirement(s)	Strategies, Policies and Procedures
	<p>cleaning, sanitation, and disinfection as outlined in the COVID-19 Job Cards. FEMO staff have all been trained on the proper use of cleaning, sanitizing, and disinfection protocols. COVID-19 Job Cards have been distributed to all staff. Ventilation protocols will be monitored by the FEMO HVAC Mechanics to increase air circulation using the District building automation system, where possible, and Facilities Specialists/Building Utility staff will be encouraged to keep windows open when possible.</p>

Social Distancing and Other Safety Protocols

Requirement(s)	Strategies, Policies and Procedures
<p>* Classroom/learning space occupancy that allows for 6 feet of separation among students and staff throughout the day, to the maximum extent feasible</p> <p>* Restricting the use of cafeterias and other congregate settings, and serving meals in alternate settings such as classrooms</p> <p>* Hygiene practices for students and staff including the manner and frequency of hand-washing and other best practices</p> <p>* Posting signs, in highly visible locations, that promote everyday protective measures, and how to stop the spread of germs</p> <p>* Handling sporting activities consistent with the CDC Considerations for Youth Sports for recess and physical education classes</p> <p>Limiting the sharing of materials among students</p>	<p>The minimum three-foot distance or six-foot distance for the hybrid model, will be imposed to the greatest extent feasible.</p> <ul style="list-style-type: none"> ○ All desks will face the instructor ○ All other furniture will be removed from the classroom except for the teacher desk ○ Large group instructional spaces will be utilized when class size exceeds the maximum number of desks <p>At the elementary level, it is suggested that specials are held within homeroom class settings to reduce the use of shared space, materials, and to minimize transitioning in the hallways. The master schedule at the elementary level will also reflect lunches and recesses for grade levels limited to that grade level only to reduce the intermixing of students and staff and to promote social distancing. Additionally, minimize the amount of student tools and resources needed to reduce materials transitioning from home to school and school to home.</p> <p>At the secondary level, lunches will be grab and go at dismissal time. Students will not use lockers, locker rooms or weight rooms.</p>

Requirement(s)	Strategies, Policies and Procedures
<p>Staggering the use of communal spaces and hallways</p> <p>Adjusting transportation schedules and practices to create social distance between students</p> <p>Limiting the number of individuals in classrooms and other learning spaces, and interactions between groups of students</p> <p>Coordinating with local childcare regarding on site care, transportation protocol changes and, when possible, revised hours of operation or modified school-year calendars</p> <p>Other social distancing and safety practices</p>	<p>Signage promoting social distancing will be provided in the classrooms, restrooms, hallways, sanitizing stations, cafeteria, food court, and communal spaces for both staff and students to remind individuals to limit clustering:</p> <ol style="list-style-type: none"> 1 - Limit the number of students in each space 2 - Mark areas for traffic flow 3 - Other necessary distancing procedures <p>At both the elementary and secondary levels, strict traffic patterns will be enforced within the hallways to limit contact among individuals.</p> <p>Bell schedules may be staggered at the secondary level and strict traffic patterns will be enforced in the hallways. Visuals may include a middle divider, arrows directing traffic, and one-way hallways where possible. Congregating in common areas will also be prohibited. Restroom use between periods will be discouraged.</p> <p>Staff break rooms and communal spaces must be re-configured to allow for proper distancing.</p> <p>Outdoor spaces may be used for instructional purposes. Physical education classes may be held outdoors, weather dependent.</p> <p>Signage promoting proper hygiene should be readily visible in locations such as classrooms, restrooms, hallways, sanitizing stations, communal spaces for both staff and students, etc.</p> <p>Standard buses will allow for two students per seat, with students required to wear masks. Distancing on buses and vans providing special transportation will be evaluated on a case-by-case basis. CBSD Before/After Care will follow district guidelines and protocols</p> <p>No visitors or volunteers will be allowed to enter the school building unless considered essential. All essential visitors will be required to follow the same safety guidelines as all other school personnel.</p>

Requirement(s)	Strategies, Policies and Procedures
	<p>Virtual professional development will be provided for staff members prior to the start of the school year for students. Staff and students will be given guidelines for hygiene practices including the frequency and manner of hand sanitizing and handwashing. Staff and students, as appropriate, will be trained on the use of face coverings. Families will receive education on health rules and expectations including ways to practice safe hygiene at home and social distancing through the school website, emails, and additional communications.</p>

Monitoring Student and Staff Health

Requirement(s)	Strategies, Policies and Procedures
<p>* Monitoring students and staff for symptoms and history of exposure</p> <p>* Isolating or quarantining students, staff, or visitors if they become sick or demonstrate a history of exposure</p> <p>* Returning isolated or quarantined staff, students, or visitors to school</p> <p>Notifying staff, families, and the public of school closures and within-school- year changes in safety protocols</p>	<p>Staff and parents will be given guidelines about sign and symptoms of COVID19. It will be expected that staff and parents will self-monitor prior to arrival at school.</p> <p>Students or staff that exhibit signs or symptoms during the school day will report to the health office with a face covering. First, the student or teacher should leave the classroom immediately, put on a mask, and report to the nurse's office. The nurse should fully assess the student/teacher, including a temperature check and questions about any pre-existing conditions that may explain the symptoms. As the situation warrants, the nurse should contact a parent/guardian to arrange for transportation off-site. Parent will monitor their child/children daily for fever and/or other signs of COVID. Once in school, staff will do a quick check of students. All staff will report self-monitoring daily, this will be reported electronically and will be</p>

Requirement(s)	Strategies, Policies and Procedures
	<p>sent to the administration staff and nursing staff for that building.</p> <p>Student/staff with signs of infection will be masked and isolated until arrangements are made for dismissal. The nurse will clean and sanitize the area between each student/staff member. Students, staff, and visitors returning after isolation or quarantine will report to the School Nurse for evaluation prior to returning to classroom.</p> <p>The district will consult with the Bucks County Health Department on decisions impacting the closure of classrooms, schools, or the district.</p>

Other Considerations for Students and Staff

Requirement(s)	Strategies, Policies and Procedures
<p>* Protecting students and staff at higher risk for severe illness</p> <p>* Use of face coverings by all staff</p> <p>* Use of face coverings by older students (as appropriate)</p> <p>Unique safety protocols for students with complex needs or other vulnerable individuals</p> <p>Strategic deployment of staff</p>	<p>The district will consider developing a student-specific plan for students at high risk that facilitates their safe return to school using increased social distancing strategies, where feasible, for the student and staff. This may include providing students with a Distance Learning platform.</p> <p>Staff teaching from the school building, support staff, and students will wear a face covering. Face coverings will be made available to individuals who enter the school building.</p> <p>All staff may wear clear face shields in addition to a face covering when meeting face-to-face, teaching, or interacting with others in classroom and congregate settings.</p>

Requirement(s)	Strategies, Policies and Procedures
	<p>Vulnerable individuals should be required to hand sanitize or hand wash prior to eating and the district will provide hand sanitizer in classrooms as well as encourage frequent hand washing and hand sanitizing.</p> <p>If possible, students should bring their own lunch and eat in their classrooms. If in cafeteria, students should be seated in on the same side of the table.</p> <p>The district will ensure that students are provided FAPE and continue to receive access to related services while in the school.</p> <p>The district will provide environmental (e.g. smaller class size) and classroom supports for those children who may need assistance with hygiene measures, such as some children with behavioral/developmental disorders, where feasible.</p>

Health and Safety Plan Governing Body Affirmation Statement

The Board of Directors/Trustees for Central Bucks School District reviewed and approved the Phased School Reopening Health and Safety Plan on July 21, 2020.

The plan was approved by a vote of:

_____ **Yes**

_____ **No**

Affirmed on: April 13, 2021

By:

(Signature* of Board President)

(Print Name of Board President)

*Electronic signatures on this document are acceptable using one of the two methods detailed below.

Option A: The use of actual signatures is encouraged whenever possible. This method requires that the document be printed, signed, scanned, and then submitted.

Option B: If printing and scanning are not possible, add an electronic signature using the resident Microsoft Office product signature option, which is free to everyone, no installation or purchase needed.
