Background on the Superintendent Search Process

The Board began their search process in February 2024, engaging with the Bucks IU to serve as its search consultant. On behalf of the Board, the Bucks IU conducted a community survey from February 28, 2024, through March 8, 2024, to identify the community's opinions and priorities. More than 960 parents, guardians, taxpayers, students, staff, and other community members responded to the survey, offering feedback on the ideal characteristics and attributes of the future superintendent. The survey also captured what the community believes to be the district's priorities for the immediate and long-term future. The survey results were shared with the community on the district website and through district communication channels.

As the search consultant, the Bucks IU facilitated a comprehensive search process, actively recruiting qualified candidates and advertising the position in local, regional, state, and national publications. The position was advertised from February 27, 2024, through March 24, 2024. Thirty-two candidates applied for the position. All decisions relating to interviews and candidate selection rested solely with the Central Bucks Board of School Directors. The Board thoroughly reviewed all the candidate applications and selected nine applicants to move forward to a first round of interviews. Six candidates were from Pennsylvania, and one each from Delaware, Iowa, and New Jersey. Following these initial interviews, the Board invited three applicants back for a second, increasingly rigorous round of questioning which also required the candidates to complete writing exercises and prepare presentations relevant to district

priorities. The Board invited two applicants to return for a third round of interview questioning after which, the decision was reached to offer Dr. Steven Yanni the position of Superintendent of Schools.
