

BACK TO SCHOOL 2021-2022

Central Bucks administrators are actively working to prepare for the coming school year. As our students enjoy the first weeks of summer break - we wish to share **some important points for 2021-2022**.

Today, the district launched the "**Back to School 2021-2022**" section of our website at www.cbsd.org/2021-2022, where families may monitor planning and progress as we prepare for the fall. If you have questions, please send email to information@cbsd.org.

2021-2022 SCHOOL YEAR

Students will attend school in person, 5-days per week.

The school day will return to regular arrival and dismissal times.

All teachers will be in-person, in classrooms.

The 2021-2022 school year will see a return of the co-curricular and extracurricular programs, activities, and school culture components that are essential to Central Bucks. Volunteers will return to classrooms, assemblies and field trips will be planned, and students will have a traditional schedule with a full lunch/recess period, etc.

WHAT ABOUT VACCINES?

WHAT WE KNOW NOW...

Central Bucks does not require proof of a COVID-19 vaccine of students or employees. The Pennsylvania Department of Education is the governing body that determines which vaccines are required for students' public school attendance.

WILL THERE BE A 2021-2022 HEALTH & SAFETY PLAN?

WHAT ABOUT MASKING?

WHAT WE KNOW NOW...

The American Rescue Plan Act requires school districts that receive funding under the Elementary and Secondary School Emergency Relief Fund to develop and make public a health and safety plan. This plan will be placed before the Board for their consideration prior to July 31, 2021. Please find a draft of this plan at www.cbsd.org/2021-2022.
