

## **Three Cards Down**

### **Game Directions**

1. Put three or four cards from the deck of sight word flash cards or phonics chunk cards down in front of the child.
2. The child is to choose a word to read. If he or she reads it correctly, he or she can pick up the word to keep.
3. Continue to replace cards so that the child always has three or four words to choose from.
4. The child continues to read the words as quickly as possible while you replace the cards.
5. If the child is stuck on a word, read it to him or her. Have the child repeat the word.
6. The child can repeat the game, if needed.
