ScreencastOMatic			

- After the install, search for Screencast-O-Matic in your programs list and open the application. Sometimes you are prompted to pick a version. If so, select Use Free Version unless you have access to a Pro Account. Pro Account users need to login one time to set-up their accounts.
- 3. A dotted window will appear. Place the dotted line around the area that you would like to record. After you hit record, a **Done** button will appear. Select this button when you are finished.

- You will be given three choices as to what you would like to do with the completed screencast. You should Publish to Video File.
- 5. Finally, save the video to your I-Drive by selecting the **Save Video** button. Name the file and select **Save**.

Posting Videos

Option 1(The suggested method): To post your videos, you can create a spot on your Schoolwires page with the Premium video App. This link will explain how to set this up: <u>http://www.screencast.com/t/b09vPJfNym5</u>.

Option 2: If you wish to embed your video, you can use the SOM web site or Schooltube. You will utilize the Schoolwires Embed Code App. See below for directions:

- ✓ In Schoolwires open the page that you would like to add the Embed Code.
- ✓ Sign-in and go to the Site Manager. Add an Embed Code App to the page.
 - Do this by selecting: Manage Apps & Layout →Add App→ Embed Code App. Then select I'm Done.
- ✓ Finally, go back into the Embed Code App and paste your code. Select save and your video will appear.

You are in design mode. Organize your apps by dragging and dropping. Double-cli change the name.	ick the App to
