

# Elementary Summer Learning Opportunities

Continue your child's learning journey over the summer by utilizing these online and offline learning opportunities! These resources are appropriate for students in grades K-6.

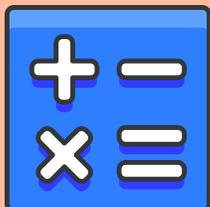

## SUBJECT

## ONLINE LEARNING

Click on the icons to access the resource.

## OFFLINE LEARNING

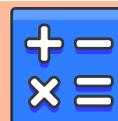

### MATH

Allow your child to practice Math skills at his or her own level.

Practice your fact fluency!

Complete any blank page in your math workbook you can complete independently. Only work on skills that are familiar to you.

### READING

Allow your child to practice Reading skills at his or her own level.

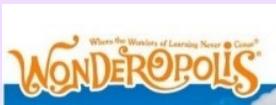

A world of storybook adventures through read alouds and activities.

Keep reading! Tell a family member, a friend, or a teacher about the book. Explain whether you would recommend it and why.

### SCIENCE

What does your child wonder about? Explore this resource to learn more about the world around us.

Hands-on activities that will allow your child to critically think as they work through different tasks sorted by grade and/or specific topic.

Go for a nature walk! Write about it or draw a picture of what you observe.

### SOCIAL STUDIES

A variety of articles and videos to reinforce concepts learned in school.

Reading and writing quests, math exercises, and crafting ideas for children of all ages.

Interview a family member to learn more about your family's history.

### WRITING

Looking for ideas to inspire writing? Your child will be motivated by writing prompts created by authors and educators.

Encourage reading and writing with these fun and educational resources.

Keep a writer's notebook/journal over the summer. Be sure to keep special items you collect over the summer, such as postcards, tickets, brochures so you can write about these moments!
