

Welcome to 5th Grade!

Hello Fifth Grader,

My name is [Mr. Heinlein](#), and I am so excited we get to enjoy [fifth grade](#) together this year. It is an awesome year full of learning, making life-long friends, and creating the best memories. Let's make it count by doing some amazing things together!

I am very passionate about teaching and working with students. This will be my fourth year teaching and my eighth year working in Central Bucks! Before I became a teacher, I also went to Central Bucks School District. I went to Butler, then Unami, and I graduated from C.B. South in 2017. I went to Penn State Abington and was able to student teach 4th grade for the School District of Philadelphia. While I was in college, I worked for the Before and After School program at Butler Elementary. After I graduated college, I was a building substitute at Bridge Valley Elementary School and then I was the Librarian at Mill Creek Elementary School. For the past two years, I taught 6th grade at Doyle, so this is my third year as a Soaring Eagle, and my first year teaching 5th grade! I also just completed my master's degree from Delaware Valley University, which was a lot of work! It is all part of lifelong learning.

This year in [5th grade](#), we will get to continue working on our [math](#) skills and adding more to our knowledge of multiplication and division, fractions and decimals, and 3-dimensional shapes. In [reading](#), we will keep using our reading strategies to comprehend texts, ask and answer questions, and learn more as we also develop more [writing](#) strategies. In [science](#), we will learn about ways nature works to recycle soil, our weather, and types of energy. In [social studies](#) we will explore the beginnings of the United States. We will also get to work on our [research](#) skills and how to prepare for and create a research project.

We will get to learn more about each other on the first day of school; [Tuesday, September 3rd, 2024](#) in [Room N3](#). I can't wait to see you and start our journey of 5th grade together. Feel free to send me an email to introduce yourself this summer.

Enjoy your summer and see you soon,

Mr. Heinlein
