

# Welcome to 6th Grade

Hello Sixth Grader,

My name is **Mr. Heinlein** and I am so excited we get to enjoy **sixth grade** together this year. It is an awesome year full of learning, making life-long friends, and making the best memories for your last year of elementary school. Let's make it count by doing some amazing things together!

I am very passionate about teaching and working with students. This will be my second year teaching and my sixth year working in Central Bucks! I went to Penn State Abington and graduated in May 2021. While I was in college, I worked for the Before and After School program at Butler Elementary. Two years ago, I student taught fourth grade virtually in the School District of Philadelphia. After I graduated, I came back to Central Bucks and was a building substitute at Bridge Valley Elementary School and then I was the Librarian at Mill Creek Elementary School for most of the school year. Before I became a teacher, I also went to Central Bucks School District. I went to Butler, then Unami, and I graduated from C.B. South in 2017.

This year in **6th grade**, we will get to continue working on our math skills and adding more to our knowledge of multiplication and division by working on solving equations. In **reading**, we will keep using our reading strategies to comprehend texts, ask and answer questions, and learn more as we also develop more **writing** strategies as well. In **science**, we will learn more about how the human body works, pollution, and Earth's surface. In **social studies** we will explore ancient civilizations and how humans lived during ancient times. We will also get to work on our **research** skills and how to prepare for and create a research project.

We will get to learn more about each other on the first day of school: **Monday, August 29, 2022** in **Room N12**. I can't wait to see you and start our journey of sixth grade together. Enjoy your summer!

Your Sixth Grade Teacher,

**Mr. Heinlein**
