Subject: Update on Water Testing at Tohickon

Dear Tohickon Community,

We hope you'll recall messages shared over the past few months that provided information about water testing being conducted at the well that supplies water to Tohickon. Here are these [past messages](#) if helpful.

Recently, the district received the results of fourth-quarter testing conducted on the well water. Like the earlier results, the fourth-quarter results indicated the levels of PFOA and PFOS are below the new limits established by the PA Department of Environmental Protection in January.

We hope you have a peaceful holiday.

Sincerely,

Tara B.G. Houser
Chief Operating Officer

Kevin Spencer
Director of Operations
