

Central Bucks Boys Soccer Camp

This camp introduces the **Developmental Soccer Camp Program**, which is limited to 5th-7th graders only. This ensures a unique opportunity to be trained by experienced high school coaches with the emphasis of transitioning from elementary school to middle school, an important stepping-stone in advancing their talents and technique. We are partnering with the **Newtown Performance Institute** to blend science and sports with the target of a more enriched approach to athletic performance. Our coaches are eager to take advantage of the developmental window these young players are in and instruct them on the importance of fundamental biomechanics as they prepare for a more advanced level of play.

Our Services:

- ✔ Goalie training included
- ✔ Speed and Agility Training with Newtown Performance Institute
*formerly Parisi Speed School
- ✔ Technical and Tactical Training
- ✔ Age-appropriate setting
- ✔ Prizes

"This camp is designed to prepare elementary school players transitioning to middle school players and understanding the physical and technical changes that come with it. We focus on the education of soccer, not just the playing of it. Learning is always an option, and we are dedicated to optimizing a young player's energy and ambition to empower them to improvement and success."
Coach Nicholl
