

Fall 2022

Dear Families and Guardians,

Attached to this letter is your child's study guide for the upcoming math Chapter Test. As we spoke about at Back-to-School night, this study guide was developed for grades 1-6 based on educational research. The purpose of using a consistent study guide for all elementary students is to build appropriate study habits and promote a strong home and school connection and uniformity across our district. This study guide will provide you with all the information you need to support your child in preparing for math assessments.

This study guide contains several parts:

The **first** part is the **chart** you will see as part of every study guide. It contains the goals of the chapter along with practice problems, student self-evaluation, and **optional** additional practice problems to support you and your child in preparation for math chapter tests.

In the **second** part, you will find an individualized **study plan** to support the building of not only learning *HOW* to study, but *WHAT* to study. This study plan was created according to the self-evaluation and practice problems completed throughout the chapter and within our chapter review. Building valuable study habits is a process. Referring to this section for tips and focused study goals for the upcoming chapter test will help to build strong study habit routines which can make your child's learning experience more enjoyable.

The **third** section is for your **feedback**. Please initial that you viewed the study guide and feel free to write any comments you feel would be beneficial for your child's teacher to know about their math progress.

Please reach out with any questions. Happy studying!

Math in Focus Reflection and Study Guide: Parent Information

Self-Evaluation Color Key: Green = *I've got this!*

Yellow = *I need some more practice.*

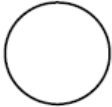

Red = *I need more instruction (help) with this.*

Here you will find the goals of this chapter that will be assessed on the upcoming chapter test.

Here are examples that your child completed in class to practice, review, and self-evaluate this goal for the upcoming chapter test.

Refer to the key above. Here is how your child feels about this skill.

Optional: If you choose, here you will find additional practice and review problems you can have your child use to prepare for our upcoming chapter test.

Goal	Example	Self-Evaluation	Student Resources
I can count by 1s, 10s, 100s, and 1,000s.	3,497 3,498 3,499 _____ 8,670 8,770 8,870 _____ 6,161 6,171 6,181 _____		<ul style="list-style-type: none"> • Workbook pgs. 7-16 • EP&HW book pgs. 10-11 • Chapter Review #3-6, 22-24

My Study Plan:

Parent/Guardian Signature:

Notes from Parent/Guardian:

Here you will find the "study plan." Your child may do some of this in school or at home.

This study plan will help to support your child in preparing for the upcoming chapter test.

Here you can initial that you reviewed the study guide and leave the teacher any comments about your child.
