

CENTRAL BUCKS SCHOOL DISTRICT

INDUCTION PROGRAM 2015-2016

Central Bucks Induction Program

All teachers new to Central Bucks will engage in a professional staff induction program that will include district and building level sessions. The district sessions that start in August and continue throughout the school year will be the equivalent of the five required induction days. Professional attire is expected at all induction sessions.

Building Level Sessions

Building induction sessions will support new teacher induction at site-based level. The building induction team (administrators, mentors, and teacher leaders) will schedule and facilitate these sessions.

Academy Sessions

Academy sessions will be facilitated by district administrators and staff developers. Please refer to your Induction Program calendar for specific dates, times, and topics.

CB101 Workshops

New teachers may register for any CB101 session through the Staff Development Database. Here are some workshops you might be interested in:
