

Here's how you add a Flex Editor app to a page.

1. In *Site Manager*, navigate to the workspace containing the page to which you wish to add a Flex Editor app.
2. Click **Actions** to the right of the page and select *Edit Page* from the drop-down list. The page opens in Edit mode.
3. In the Actions pane, click *Manage Apps & Layout*. The page opens in Design mode.
4. Click **Add App**. The Select an App dialog displays.
5. Select Flex Editor App in the first column. A list of existing Flex Editor apps along with a **Create New** button display in the second column.
6. To add an existing app to the page, select an app in the list. You are returned to the page in Design mode.
7. To add a new app to the page, click **Create New**. In the third column, enter a name for the app.
8. Click **Create**. You are returned to the page in Design mode.
9. Click **I'm Done** to return to the page in Edit Mode.

You are now ready to edit the app.
