

WHAT CAN I EXPECT FOR MATH IN FOCUS HOMEWORK?

Parent-teacher communication is important. Homework is designed to practice skills your child has already learned. Homework will be assigned when I am confident it can be completed independently. If your child struggles to complete their homework, please write a note so that I can provide additional support and instruction. Children shouldn't practice the incorrect way or become upset over a homework activity.

WHAT WILL MATH HOMEWORK LOOK LIKE?

There will be a variety of homework activities.

These may include:

- Completing a page or specific problems from the **Extra Practice and Homework Book**.
- A reteaching activity
- Completing an online activity (answering questions or playing a game)
- Practicing math facts
- Reviewing the "Learn" section of the workbook with your child and signing the page
- Watching a "Learn" video at home with your child
- Playing a game learned in class

WHAT IF MY CHILD ISN'T ASSIGNED HOMEWORK?

If no homework is assigned for the day, feel free to have your child choose from the list of activities below.

- Play a game to practice math facts
- Complete a suggested activity from the School Home Connections letter in the Extra Practice/Homework book
- Online activities or apps
- Other activities and learning experiences I familiarize your child with throughout the year
