

SCHOOL SUPPLY LIST

Due to the virtual start this year, the school district asked us to share the following items listed below - for special subjects (Art, Music, Library, Gym, QUEST) and regular classroom instruction. Please consider using items you may already have at home to complete this list. If you need financial assistance, please contact the main office number at 267-893-4050.

All students should have the following items to be successful with virtual learning.

*When students come back to school, we will send home a second supply list, so they have what they need in the building to succeed.
